

In response to the FEC inquiry regarding the 2009 October Quarterly report filed by Friends of Glenn Thompson, I have made the following corrections to the report and to our reporting practices:

1. All amounts in Column B have been corrected.
2. Schedule B has descriptions for all itemized expenditures.
3. Schedule B has proper itemized disbursement descriptions.
4. Located and corrected the discrepancies for ECTD total on PAC contributions.

The cause of these items was due to change reporting software. When Friends of Glenn Thompson purchased new reporting software, the data from the previous software was imported into the new software. As a result there were many duplicate entries as well as "ghost" entries in the new software for transactions before the third quarter 2009. This caused items 1 and 4.

Compounding that problem was the learning curve for the new software as well as having a new staff person inputting data. This caused items 2 and 3. The staff person has been properly trained on how to correctly enter all necessary information in the software.

Sincerely,  
Katherine A. Bobeck  
Treasurer  
Friends of Glenn Thompson
